## Consistency in a Changing World

manufacturing single-use ophthalmic cannulas and handpieces

With over 30 years' experience as a manufacturer of single use ophthalmic surgical products, Sterimedix is now the leading European manufacturer of single use ophthalmic cannulas.

meeting the demands of modern ophthalmic surgery techniques

Products are supplied in different formats to meet the needs of our customers:

- ▶ Packed sterile in convenient box quantities of either 5, 10 or 100.
- ▶ Packed sterile in bulk for our industry partners
- ▶ Packed non-sterile, in bulk for kit packers.  
Most non-sterile products are packed in a protective sheath labelled with the product code & LOT number.

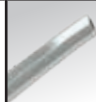

### QUALITY ASSURANCE

Sterimedix Limited is committed to producing medical devices to the highest possible quality. The Company's Quality Management System is accredited to ISO 13485:2016. Our products are CE marked, registered with the United States FDA and have appropriate approvals in all other markets where Sterimedix is active.

# Refractive Cannulas / Scleral Markers

## Refractive Cannulas

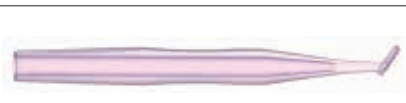

For irrigating either the anterior or posterior sides of the flap and the stroma in laser refractive procedures.

Sterimedix products are packed sterile in a single blister in space saving boxes designed to minimise waste.

## Protector for Kit Packers

A new labelled protector for bulk non-sterile products, to provide increased flexibility and reduce packaging waste.

Designed to protect the cannulas and needle tips by ensuring that no distortion or deformation can occur to formed or angled products such as cystotomes.
