Asqelio™ EDOF

Fusion of technologies for exceptional vision

Extended range of focus with a monofocal-like quality

AST VISIONCARE
An ICARES Medicus Inc. group company

The next evolution in non-diffractive optics

AST Visioncare's **Asqelio™ EDOF** delivers true visual freedom with the uncompromising clarity of a superior non-diffractive design. It offers the continuous range of vision your patients desire, with a safety profile comparable to monofocal IOLs.

KEY CLINICAL BENEFITS OF ASQELIO EDOF

Excellent distance vision
100% of patients attained a corrected distance visual acuity of 20/25 or better.[1]

Freedom of vision
94% of patients achieved excellent spectacle-free vision for distance and intermediate activities.[2]

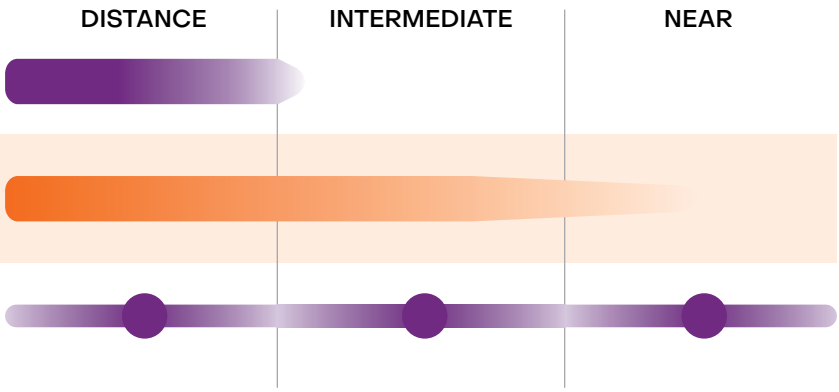

Extended range with functional near
Functional vision maintained through ~2.0D of defocus[3], with 41% reporting no difficulty reading newspapers[1].

Monofocal-like quality
Contrast sensitivity (1.67 vs 1.66) and optical scatter index remained comparable to the monofocal control.[3]

Favourable dysphotopsia profile
90% of patients reported no significant dysphotopic phenomena.[1,2,3]

BRIDGING THE GAP WITH EDOF TECHNOLOGY

Asqelio™ EDOF is designed to deliver a smooth, continuous range of vision from distance through strong intermediate and toward functional near, while maintaining visual quality.

Easy handling with the preloaded Pioli™ injector
