

Asqelio™ EDOF – fusion of technologies for exceptional vision

FREEDOM OF VISION – THE CORE PROMISE DELIVERED

94% of patients achieved excellent spectacle-free vision for distance and intermediate activities, empowering an active lifestyle.¹

Extended range of focus

AST Visioncare's **Asqelio™ EDOF** delivers true visual freedom with the uncompromising clarity of a superior non-diffractive design. It offers the continuous range of vision your patients desire, with a safety profile comparable to monofocal IOLs.

FEATURES AND BENEFITS

- **Proprietary technology** | Uses wavefront tailoring and a precisely engineered posterior surface to create a single elongated focal range, extending focus, while preserving optical quality and minimising disturbances.
- **Night-time safety** | Stable distance vision in low-light conditions, without refractive shift.
- **Clarity and quality** | Shares the proprietary hydrophobic acrylic material used in the trusted MBI platform.
- **Continuous vision** | Clear vision at distance and intermediate range, functional near in one-third of patients.

Easy handling | Easy to implant with the preloaded Pioli™ injector system.

OPTIMISED FOR MODERN LIFE – BUILT FOR TODAY'S NEEDS

75% of patients perform daily near activities spectacle-free.^{1,2}

TECHNICAL SPECIFICATIONS

Rebate codes	IQ035	IQ038
Delivery range	+5.0D to +30.0D in 0.5D steps Upon request: 0.0D to +5.0D and +30.0D to +34.0D in 0.5D steps	+5.0D to +30.0D in 0.5D steps Upon request: 0.0D to +5.0D and +30.0D to +34.0D in 0.5D steps
Cylinder availability		+1.0D to +3.0D in 0.5D steps Upon request: +3.0D to +6.0D in 0.5D steps
Material	Single piece hydrophobic acrylic with UV absorber and blue light filter. With UV absorber 99% of UVB and 90% of UVA.	Single piece hydrophobic acrylic with UV absorber and blue light filter. With UV absorber 99% of UVB and 90% of UVA.
Optic design	Bi-convex, bi-aspheric	Bi-convex, bi-aspheric, anterior toric
Lens colour	Yellow	Yellow
Refractive index	1.5	1.5
Abbe number	50	50
Spherical aberration (SA)	-0.27µm @6mm	-0.27µm @6mm
Central thickness	0.63mm (20.0D)	0.63mm (20.0D)

RECOMMENDED CONSTANTS

Manufacturer's A-constant	119.33*	119.33*
Barrett A-constant	2.09*	2.09*
Ultrasound A-constant	119.10**	119.10**
Delivery system	Pioli™ injector system	Pioli™ injector system

* IOL constants have been derived from clinical evaluation results of the Asqelio™ EDOF.

** IOL constants have been theoretically calculated. AST Visioncare Inc. recommends that each surgeon optimise and personalise their own A-constant for each IOL model.

CONFIDENCE, DAY AND NIGHT – DESIGNED FOR REAL-WORLD RELIABILITY

92% of patients reported satisfaction with their vision in low-light conditions, ensuring peace of mind when driving at night.^{1,2}
